STONY PLAIN, ALBERTA THURSDAY, JUNE 16, 1927.

Whole Number 358

The Red Cross appeals to YOU for support

SINCE the War, the Red Cross has disbursed over Seven Million Dollars for the Soldiers, Women, Children and Frontier Families of Canada.

About half of this has been spent for disabled soldiers—half in the other services of the Society about which you have been told. The Treasury is almost empty.

\$1,000,000 Needed Now for Red Cross Work

The Red Cross brings cheer to our disabled warriors and their families. It stimulates the children of Canada to healthy living and good citizenship. It relieves suffering, and brings skilled attention to Canada's frontier districts remote from other aid. Its work is indispensable.

It now appeals to YOU, as a patriotic and humane Canadian citizen, to contribute generously to its need for funds.

Nation-Wide Appeal Canadian Red Cross Society

Send Contributions to:
Alberta Division, Canadian Red Cross Society,
Civic Building, Edmonton, Alberta.

In Stony Plain District we propose to ask Contributions during the weeks
JUNE 13th to JULY 1st, inclusive.

WANTED—Girl, German speaking, coming from the Old Country, wants place as a domestic servant; please state wages. Box 5, Stony Plain Sun.

LOCAL NEWS.

News reached here Monday of the death from heart failure of Mrs. Britten, on Saturday morning at Drumheller. Deceased had lived for several years in Stony, leaving here about a year ago to reside in Drumheller. Mrs. Britten had lost her husband in the Great War. She leaves to mourn her loss, her two boys Arthur and Sidney.

J. L. McCabe, Strathcona, was a visitor in Stony Tuesday.

Mr and Mrs Jack Shearer have moved their household effects to Edmonton, where they will take up their residence.

Mr and Mrs Chas. Schultz and Mr and Mrs O G Wudel left this week for Chicago, going down by motor cars. Mr Wudel, last week, purchased a new Dodge coach.

Mr and Mrs J W McCulla and the Misses McCulla, who had been summering in California for the past month, arrived home on Saturday.

The case was listed for a hearing last week in an Edmonton Court of Peter Gabel against Ph Kornberger, the latter being sued for the amount owing for a well drilled by Gabel. The case will be taken up at the sitting, in Stony, of the District Court, Wednesday, Oct. 26.

There was a good attendance, Sunday, at the social evening held by the Waltham League in St. Matthew school house No. 2. A very interesting program was given.

A concert will be given in Stony Saturday evening by Concordia Choir. Program consists of solos, duets, choruses, and an address.

While returning the other evening from Edmonton with his cream truck, Mr Gus Mintz was run into, on the Baseline west of Winterburn. The accident occurred where the road curves round a big swamp. Mr Mintz had noticed a car approaching round the bend and was proceeding very cautiously on the extreme right-hand side of the road, and had come practically to a standstill when the impact occurred, but this did not save him, and he and a fellow traveller, Mr John McKinnon of Edmonton, received a severe shaking up when the vehicles collided. The coupe, Alberta license No. 45 421, said to have been driven by a traveller named Mr J F Williams, who lives in Edmonton, had a wheel knocked off. Mr Williams was picked up by an east-bound car and taken to the City. Mr Mintz's car also received damages which necessitated the calling of the repair car.

M. M. Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Thursday, June 30th. See him and see well.

Secretary Pidgeon, of Inga M.D., will be in Stony Plain on Saturday, June 18, to receive taxes for the Municipal District.

Canada's Diamond Jubilee

Only once in the history of any nation does the opportunity come to its people to celebrate the diamond jubilee of its founding. Canadians will enjoy that opportunity on July 1st next, and it is gratifying to note that the celebration will be well nigh universal from coast to coast. Canadians, no doubt, would have with equal zest and enthusiasm celebrated the fiftieth anniversary of Confederation but for the fact that in 1917 they were engaged in a life and death struggle in which the very existence of Canada was at stake. The victory won through the great sacrifices then made should add to the gratitude and pride of our people in this year of the Diamond Jubilee.

Children today may have the opportunity of celebrating one hundred years of Confederation, but our adult population will not, and so those who actually witnessed the inauguration of this young nation, and those who have taken part in its earlier development, will no doubt throw themselves wholeheartedly into the ceremonial which will commemorate this historic event.

It is the repeatedly expressed desire of the National Committee created by Parliament to promote this Diamond Jubilee celebration that it should be participated in by all the people, old and young, in small hamlets and rural districts as well as in the larger centres of population. It is the spirit of the ceremonies rather than in their elaborate character that their real significance and value will be found.

The National Committee has, therefore, urged that there be at least one simple little ceremony everywhere at the same hour, and have suggested that, at twelve o'clock noon on July 1st in every community however small, bells should be rung, whistles blown, and the two national anthems "God Save the King" and "O Canada" sung. And again, that at 2:30 o'clock on the afternoon of Sunday, July 3rd, a community service of general Thanksgiving be held. For this latter service the National Committee is preparing a simple programme of exercises suitable for all communities.

These are suggestions which can readily be carried out in all communities, and it is to be hoped that the people of the Dominion will accept the lead of their National Committee and untidely co-operate with it in giving effect to these suggestions. They need in no way interfere with the larger and more elaborate programmes being arranged in most cities, towns and villages.

It is further suggested that a tree be planted in every community with fitting ceremonies to be hereafter cared for and known as the Diamond Jubilee Confederation Tree. This, too, offers no obstacle on the score of expense to any community. Not only can such a tree be planted in some public place in all urban communities, but there would appear to be no reason why a Confederation Tree should not be given a place of honor in the grounds of every rural school throughout the length and breadth of the Dominion.

As a further marking of Canada's sixtieth birthday anniversary it is proposed that some public park or place in every community be named "Canada Place" or "Canada Square." If all such places already bear names, then one, the designation of which has no special significance, might be renamed in accordance with this suggestion.

Every child enrolled in a public, separate or private school in Canada in this Jubilee year is to receive a medal struck in the Royal Mint at Ottawa, the gift of the National Committee. The presentation of these medals to the pupils offers a splendid opportunity to school district officials to plant a little ceremony at which a short talk on what Confederation has meant and has achieved for Canada might be given, and the boys and girls of today urged to render loyalty and devotion to Canada and dedicate their lives in service to their country.

Like most people living in northern climes, Canadians are not much given to showing their feelings. Their patriotism is something they do not talk about to any extent and they are especially averse to display. But this Diamond Jubilee is one occasion on which the people of Canada may well use a little display their feelings with pride and vigor, it will do them good, and especially should the children be encouraged to regard Dominion Day, 1927, as a red letter day in their young lives, and celebrate it accordingly.

Air Not Yet Conquered

Casualties in Long Flights Greater Than the Successes

Since Lindbergh winged his way through hail and fog for night to Paris, men have begun to talk about flying to Honolulu, to Australia, and to Japan. It is quite possible that, in time, such feats may be accomplished.

Babies Cry For "Castoria"

Prepared Especially for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Paregoric, Teething Drops and soothing syrups. Contains no narcotics. Proves directions are on each package. Physicians everywhere recommend it.

Wins Prize in England

Tobacco From Canadian Farms Awarded Medal for "Outstanding Excellence"

Canadian tobacco has been awarded a silver medal for the "outstanding excellence" of leaf tobacco shown at the International Tobacco exhibition held at Olympia, London, in May, according to an announcement made by the Department of Agriculture.

The Canadian exhibit was prepared by the Tobacco Division of the Central Experimental Farm, Ottawa, in competition with South Africa, Colombia, Italy, Greece and Macedonia. Canadian tobacco exports trebled in 1926 and the value of the leaf sent to Great Britain alone totalled over \$2,000,000.

2 Years' Backache Subdued by "Nervine"

"Backache was the bane of my life, for two years I was so lame as to be unable to work," writes J. S. Sloane, from Georgetown. "While in Smith Bros' Drug Store, I heard of Nervine being a wonderful pain destroyer, so I decided to try Nervine. Thanks to Nervine, my two-year backache was rubbed away, and today I am perfectly well." All those who suffer from weak, aching backs, whose muscles are stiff, whose joints are swollen, let them try Nervine—the liniment that never fails. 35¢ at all dealers.

Agreement Has Expired

Railway Assisted Many Alberta Farmers to Move From Dry Area

They have largely sufficient energy to enable them to perform their manifold duties. Often they have an aching back, a miserable pain in the back, and limbs that feel as heavy as lead. The whole trouble is due to bloodlessness. No more need suffer in this way. It is easy to obtain a supply of rich red blood by taking Dr. Williams' Pink Pills for new blood created by these pills rapidly builds up the system; headaches and backache disappear, energy returns and the joy of living is felt once more.

WOMEN WHO ARE WEAK

Gain New Vitality by Building Up the Blood

There are many women who pass their days in a constant state of weariness. They have largely sufficient energy to enable them to perform their manifold duties. Often they have an aching back, a miserable pain in the back, and limbs that feel as heavy as lead. The whole trouble is due to bloodlessness. No more need suffer in this way. It is easy to obtain a supply of rich red blood by taking Dr. Williams' Pink Pills for new blood created by these pills rapidly builds up the system; headaches and backache disappear, energy returns and the joy of living is felt once more.

Proof of these statements is given by Mrs. Ed. Lamore, Stony Point, Ont., who says:—"For a long time I had been in a very miserable condition, always feeling tired out, sleepy and weak. The least work of the house would leave me helplessly tired and nothing that I did seemed to give relief. Believing that a rest might do me good, we moved to town, but, contrary to expectations, instead of getting better I was growing steadily weaker. One day while talking to a neighbor, who urged my taking Dr. Williams' Pink Pills, telling me that her daughter had been in a condition much like mine. This persuaded me to try this medicine, and I have much reason to be grateful that I followed her advice. Within a few days a few boxes of the pills, there could be no doubt that they were helping me, and as a consequence my sleep and strength came back and now I am doing all my own work and feeling in the best of health. For this splendid condition I must give my thanks to Dr. Williams' Pink Pills. The pills are sold by all druggists, or you can get them by mail at 6¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont."

A common little situation in the morning is, "God give you a good day."

CAMPERS!

Take Minard's, in your kit. Good for cuts, sprains, burns, and insect bites.

Minard's Liniment for insect bites.

Cuticura Preparations

Unexcelled in purity, they are regarded by millions as derivatives of the promotion of skin and hair health. The purifying, antiseptic, pore-cleansing properties of Cuticura Soap preserve the skin; the Ointment soothes and heals rashes and irritations. The freshly-lathering shaving stick causes no irritation, but leaves the skin fresh and smooth. The Talcum is fragrant and refreshing.

By Mail, 25¢ each, Cuticura Soap, 25¢ each, Ointment 25¢ and Talcum 25¢. Cuticura Shaving Stick 25¢.

Many Prizes for Aviators

More Than \$100,000 Offered for Five Long Air Races

With prizes totalling more than \$100,000 offered for long distance flights, over continent and ocean, adventurous aviators may now choose from at least five events of the kind during the next few months.

To date, the prize offers and proposed flights are:

\$25,000 offered by James Doyle, of Honolulu, for a non-stop flight from the Pacific Coast to Honolulu.

\$25,000 for the first and \$10,000 for the second aviator to make the hop.

\$25,000 offered by William K. Eastwood, Dallas, Texas, capitalist, for the first to fly from Dallas to Hong Kong, 10,000 miles.

\$32,000 offered by the business men of Spokane, Wash. for a series of races between New York and Spokane. This race is sponsored by the National Aeronautic Association.

\$50,000 by Sir Graeme, of Hollywood, Calif., for the first to fly from Los Angeles to Tokyo, 5,000 miles.

\$3,500 by Spokane interests for a race from San Francisco to Spokane.

Fish By-Products

Map Showing Location of Plants in B.C. Has Been Issued

The Natural Resources Intelligence Service, in co-operation with the Department of Marine and Fisheries, has issued a map showing the location of the Fish By-Product reduction plants now installed in British Columbia with the names of the operating firms.

The chief fishing areas are also clearly defined and it can be seen at a glance in which of these areas are many, few or no reduction plants, and where there appears to be room for further enterprise in this line.

At the present time there are 28 plants in operation, which produce oil, meal and fertilizer from salmon, halibut and other fish, pilchard, herring, dogfish and whiting.

The Canadian National Railways are erecting oil tanks of 300,000 gallon capacity, and the Canadian Pacific Railway is fitting a coast-wide tanker with a 700,000 gallon tank. There is a large demand for these fish by-products, which can be shipped direct from British Columbia ports to Europe and Asia.

A Remarkable Picture

Canvas 128 Feet Long Depicts Coronation Procession of 1911

A remarkable picture, 128 feet long, has been painted by a prominent artist in the Queen's Hotel House Room, at Windsor Castle. It depicts the Coronation Procession of 1911. Over 300 horses and 2,000 men are seen in the drawing, which is to the same scale as the Doll's House. Beginning at the door of the room the painting shows the five white horses which headed the procession, followed by detachments of troops, the Royal Coach drawn by the eight famous cream, the distinguished guests and the remainder of the Sovereign's escort.

Air Mail Problem

The experimental work in connection with the post office department's air mail programme will likely be delayed until the early fall, according to latest advices. It has been decided not to call for tenders for any definite air mail routes at this present time, but late this summer the Royal Canadian Air Force will undertake some experimental work in the Gulf of St. Lawrence and will carry on into the winter months. The intention is to secure accurate information respecting flying conditions before any contracts are entered into, with private concerns.

We might enjoy work more if we did not have to do it.

Campers—Take Minard's with you.

A Country of Centenarians

Spain Has Large Number of Persons Over Hundred Years Old

Spain is the land of centenarians. The latest official census states that 344 persons (ninety-six men and 258 women) have reached the age 100; seventy-five men and 201 women are more than 100 years old, and a number have reached 110 years.

There are 22,150 men and 36,294 women more than eighty years old.

It will be seen that women are longer lived than men. Even Madrid, which has the reputation of being unhealthy, has twenty-four women and eleven men who are more than 100 years old.

Miller's Worm Powders are complete in themselves. They not only drive worms from the system, but repair the damage that worms cause and invigorate the constitution that it speeds recovery from the disorders of the digestion that are the result of the work of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

New Coins For Free State

Design Proposed Tells Modern Ireland Story

Almost the entire harp and is represented in the obverse proposed for the new coins for the Irish Free State. The battle over designs for the new coinage has been won by the protagonists of emblems illustrating Irish's prestige as a horse-breeding and agricultural country.

The designs submitted include the horse, the bull, the fish and other Irish products, a series of eight designs, telling modern Ireland's story in pictures. It is hoped that the design that the reverse will display the harp, the national emblem. The issue is expected before Christmas.

No Rest With Asthma. Asthma usually attacks at night, one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of sleep and the fact that must be expected unless relief is secured. Fortunately relief is possible. Dr. J. C. Ashmead, of Ashmead's has proved its merits through years of service. A trial will surely convince you.

Too Undignified for City

Mexico's beast of burden, the burro, has been barred from the streets of Mexico City. The patient, porters of little animals, who for centuries have packed cargoes of country produce to the metropolis, now interfere with motor traffic, and, according to an official order just issued, give an "undignified aspect to a civilized city."

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. A trial will convince any who doubt its power.

The annual loss of timber at present suffered by Canada's forests through the agencies of fire, insects, and disease is greater than the amount annually used for all industrial purposes.

UNIVERSITY OF MANITOBA WINNIPEG

Offers, among others, the following Through its FACULTY OF ARTS AND SCIENCES courses leading to the degree of B.A. and M.A. and B.Sc. Through its FACULTY OF ENGINEERING AND ARCHITECTURE courses leading to the degree of B.E., B.Sc. (E.), M.Sc., and Ph.D. Through its FACULTY OF MEDICINE courses leading to the degree of M.D. and Ch.M. Through its FACULTY OF AGRICULTURE AND HOME ECONOMICS courses leading to the degree of B.S.A. and B.Sc. (H.E.). Through its FACULTY OF SCHOOL EDUCATION courses leading to the degree of B.Ed. For terms of admission, details of courses and other information, apply to the Registrar, University of Manitoba, Winnipeg.

The Magnitude and Variety Of Work Being Carried On To Assist Scientific Farming

The personnel of the Central Experimental Farms at Ottawa includes fourteen experts, and the list of their various fields of work includes Chemistry, Field Husbandry, Animal Husbandry, Horticulture, Cereals, Botany, Agricultural Bacteriology, Apiculture, Agronomy, Poultry Husbandry, Tobacco Growing, Economic Fibre Production, Illustration work, and lastly, Extension and Publicity. There are branch farms and stations in each province and also in Yukon Territory and in the North West Territories. As it is noted that, in Prince Edward Island, there is an Experimental Fox Ranch.

Some three or four years ago Dr. J. H. Orsiddle, of the Department of Agriculture, read a paper before the Conference in Scientific and Industrial Research, which was a sort of summary of the activities of his department. Speaking of Field Husbandry, he pointed out that they are carrying on experiments in rotations for the purpose of discovering the most satisfactory sequence of crops. On their farms they had between fifty and sixty different crop rotations under experiment; on the same farms they were conducting cultural experiments with a view to determining the best methods of cultivating the soil combined with the most economical production. Merely as an example of what this means, he quoted the fact that at one farm they had about twenty acres laid off into plots of one-fourth of an acre each.

Fertility experiments are also carried on for the object to learn on a field scale what applications of manure or fertilizers give the most profitable results. Then there are ensilage experiments to find out what crops can be most successfully used for ensilage in various parts of Canada. The matter of draining is one of the most difficult problems connected with agriculture, and investigations are being carried on from one end of the Dominion to the other. The trifling areas are comparatively limited, but they are all of very great importance indeed, including, as they do, some of the most fertile districts of the country.

There are also land clearing experiments, especially desirable since the opening of the transcontinental line from Quebec to Winnipeg has added a vast area to our available agricultural land.

A few of the activities engaged in by the cereal division are as follows: Production of superior varieties of cereals; wheat, oats, barley; selection of all varieties of cereals; isolation of superior varieties by selection; milling and baking tests; cooking tests in yeasts and fermentation; inventing and adapting new machinery for any work connected with the division.

Under the heading of Health, the Health of Animals Branch and the Experimental Farms Branch are co-operating with a view to studying the best methods of eradicating tuberculosis and preventing or controlling contagious abortion, etc. Under Housing, a study is being made of matters affecting ventilation, economy of handling, the general comfort of the animals and of the men looking after them. Under Botany is included forest pathology (e.g. investigating the blister rust of white pine); investigations into rust of cereals and smut diseases of grain. But a mere glance at the shelves of the Library of the Department of Agriculture will give some idea of the magnitude and variety of work being carried on in connection with scientific farming.

Easily Explained

Claims are being made that a new one is the very shortest funny story on record. It was told by Sir Harry Lauder.

"We Scots," he said, "are very fond of telling stories against our selves, and I expect you sometimes wonder why we have such a great sense of humor.

"Well, I'll tell you. It's a gift!"

Funniest Pianist: Of course I take my own piano with me wherever I go. Pianissimo: Now! Makes you wish you'd learned to play the flute, what?

W. N. U. 1648

Winter Egg Production

605 Eggs Per Month From 52 White Leghorn Pullets

The contention that egg production is not possible during the winter months has been time and again disproven. The following achievements of a poultryman in Northern Alberta will further disprove the statement. During the winter season of 1925-26, a flock of 52 White Leghorn pullets were kept in a house 12 feet wide by 14 feet long. The pullets commenced laying on October 1, when they were five months old. In the five months from November to March inclusive, they produced a total of 4,325 eggs or an average of 85 eggs per month. This makes an average production of 55 per cent. The following winter the same owner maintained a flock of 72 White Leghorn pullets which were five months old on October 14. During the months of November to March inclusive they produced a total of 5,200 eggs, an average of 1,040 per month or a production of 46.5 per cent. The reason for the lessened percentage production can directly be attributed to the pullets being hatched two weeks later than those in the flock the previous year.

Winnipeg Newspaper Union

A Frock of Smart Simplicity

Unusually smart is the attractive one-piece daytime frock pictured here, having set-in plaited side panels, short kimono or long sleeves gathered to wristbands, and a shaped collar finishing the V-neck while a belt fastens in the front with a bow or buckle. No. 1603 is for misses and small women and is in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 3 yards 29-inch or 2 1/2 yards 54-inch material. Price 20 cents the pattern.

Every woman's desire is to achieve that smart different appearance which draws favorable comments from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the style centres and will help you to acquire that much desired air of individuality. Price of the book 10 cents the copy.

A Regular Thing

"Is your sister in?" asked the young man.

"No," replied the small brother, promptly. "She's just gone out."

"Ah! the love-stricken one sighed.

"So I am like the man who went to the cage when the bird had flown."

"Oh, no, you aren't," replied the unfeeling boy. "You're like the month of June. Because every time you come in May goes out."

Solving Rust Problem

Important Discovery Has Been Made, It Is Reported

A discovery "of great scientific importance" in connection with wheat rust has been made in the Dominion rust laboratory, according to an announcement made here by Dr. H. H. T. Tully, chairman of the National Research Council. No indication is given as to the nature of the discovery but "an early announcement may be expected," according to Dr. Tully.

The laboratory of the Department of Agriculture in Winnipeg and of the three prairie universities are co-operating closely in the investigation, it is stated. This much information has been given out as a result of the meeting of the National Research Council.

The council's committee on grain research is to undertake a study of the effect of moisture and various methods of drying upon the value of wheat for milling purposes. At several places in the West fields are being prepared for this investigation and portions of the crop will be left in the fields for extended periods to determine the exact results of different weather conditions. An effort is to be made to solve this problem in the shortest possible time.

Secures Additional Moisture

Importance of Shelter Belts on Prairie Farms Cannot Be Estimated

The planting of shelter belts around farms on the Canadian prairies has given appreciable results from the agricultural standpoint. The water-conserving power of the soil has been increased; better crops have resulted; and protection from extremes of temperature and wind movement has enabled the introduction of the hardier fruits in many localities. Of the particular importance is the additional moisture secured through the formation of snowdrifts which melt gradually in the spring, providing water after adjoining open areas have largely dried up.

Fish Canning Plant

Establishment of a fish canning plant on Lake Winnipeg this summer is assured, and final arrangements as to location alone remain to be settled before construction is begun, according to J. M. Davidson, secretary of the Industrial Development Board. J. D. Fisher is the promoter of the scheme. He proposes building two plants, one near the Berens River for summer operation and packing, and one further south for the winter season. The company will can whitefish, pickerel, tullibee and trout.

The nightingale is no more interesting than the midnight cat to the man who wants to sleep.

Anglers' Harvest Assured

Basin Fish Hatchery

The 1926 harvest for anglers in the Canadian Rockies is just hatching out at the Basin Hatchery. The many youngsters, who are making their initial appearance, are breaking forth from eight hundred thousand brown trout eggs which were shipped to Basin by Canadian Pacific Express from Wisconsin last February.

The eggs, which had developed to the "eye-stage" before being shipped, were packed in shallow cheesecloth trays, insulated by damp moss, with a supply of ice to provide continued moisture. Several weeks after they had been received at the hatchery the young trout broke their shells and began another period of their growth, which lasted some weeks longer. During this time they obtained their supply of food from a sack attached to their undersides, and when this had

Radio Plays Important Part In Maintaining Communication With Canada and Old Country

On Breeding and Feeding the Hog

Advisable Methods to Follow on the Farm

"Reading makes a full man" quoth Lord Bacon. Another learned authority has said that "experience is the best teacher." Both sayings possess the merit of truth but combined they come as near the perfection of the acquisition of knowledge as is possible. In modern times the combination comes well within the possibilities. Take agriculture, for instance, not a week passes in Canada that a publication is not placed in circulation dealing with some branch, furnishing valuable information founded entirely on experience and studious research. One such is the Dominion Animal Husbandman's pamphlet treating on the "Breeding and Feeding the Market Hog," in which Mr. G. B. Rothwell tells of advisable methods to follow on the farm. He tells how young stock should be selected, how a good strain can be developed, what course to pursue in mating the breeding sow, in breeding two litters a year, in regulating supply, in housing, in feeding hogs, sows and little pigs, and advises on feeds that may be home produced and those that must be purchased. He also gives important counsel on necessary minor supplements, remarking in doing so that "No domestic animal so quickly shows the results of mineral deficiency as does the pig."

Canadian Grown Tobacco

Growers From Kentucky Are Moving to Ontario

"The American tobacco grower realizes that he must seek a new field where growing and marketing conditions are better," states Robert J. Spence, chief field man for the Ross Tobacco Co., of St. Thomas. "They naturally look to Canada where the industry is in its infancy, where the soil has not been depleted, and where the British preferential tariff makes growing profitable. The migration from Kentucky and the tobacco growing states has only begun."

Brown—"Yes, I'm saving up to buy a car."

Smith—"When are you going to get it?"

Brown—"Get it? We've had it for eighteen months now."

No man can hope to be happily married unless he is a good listener.

Canada's first use of radio was the establishment of radiotelegraph communication between stations at Belle Isle and Chateau Bay on the mainland on the north side of the Belle Isle Strait, as a substitute for a submarine cable which was continually being interrupted by icebergs.

The stations were built by the Marconi Company. Power for the transmitter was obtained from dry batteries, and the receiving sets were of the most primitive type, using Marconi's coherer of metal filings in a glass tube as the detector.

Since 1901, when 60 miles was a long range for a station, progress in radio has been steady. In 1902, Sir Wilfrid Laurier invited Mr. Marconi to Ottawa, and as a result a transatlantic radiotelegraph service between Canada and Great Britain was established. This service was inaugurated in 1907, and has been maintained ever since that date.

The apparatus of the Glace Bay transatlantic station was, of course, materially altered and improved from time to time, and last year this station was discontinued and the service transferred to a Beam Station, the latest development in radio, located at Drummondville, P.Q.

At the time of Confederation, a trip across the Atlantic was still an adventure, taking from two to three weeks. Today the liners run with a regularity approaching that of a railroad service, and a passenger, six days before the ship is due to arrive at Montreal, by means of long distance radio, is able to reserve a room with bath for a certain hour on a certain day, as a matter of routine. As the ship approaches within 500 miles of the Canadian coast, she comes within the range of the chain of "aid to navigation" radio stations; if she is in a fog she verifies her position by means of the Direction Finders; if she desires to check her chronometer, she does so by means of the radio time signals. Every twelve hours the navigator is provided with complete weather forecasts for the area in which the ship is steaming; and he is advised of the exact location of any ice which may be in his track.

The Great Lakes and East Coast "ship to shore" radio system consists of an intercommunicating chain of 26 stations and 6 beacons, extending from Port Arthur at the head of the Great Lakes to the Atlantic, and on the Pacific Coast a chain of 14 stations extending from Victoria to Alaska.

The Dominion, a country of vast areas and sparse population, lends itself to the fullest utilization of broadcasting, and there are today some 400,000 receiving sets in operation.

Canada has today some 81 broadcast stations, practically all of which are operated by private or commercial interests for indirect advertising or publicity in one form or other.

The Province of Manitoba has established a provincial service, and it is understood that other provinces are considering the adoption of a similar policy. The Federal Administration is fully appreciative of the utility of broadcasting to this Dominion and will see that it develops along the lines which will give the best possible result to our listening public.

The Ungulant Conductor

One of these women who try to appear so young that they are even ashamed of having their children get big and give them away got on the street car with a little girl and gave the conductor full fare for herself and half fare for the child.

"Excuse me, madam," said the conductor, "but your daughter seems to be more than twelve years old."

The woman put on a coy expression and exclaimed: "Why, conductor, you would never take me to be the mother of a girl that age, would you?"

The conductor drew back and looked at them both very carefully and then said: "Lady, don't tell me that you are her grandmother!"

Doc: You're pretty badly beaten; you ought to keep out of such bad company.

Victim: I'd like to, but she won't let me get a divorce.

WILL CONTINUE NEGOTIATIONS ON BORDER RULING

Washington.—Ample protection to all Canadians whatever their birth-place who have been in the habit of commuting across the international border to daily employment is asked of the United States in a note from the Canadian Government. The note is in reply to a recent note from the United States on border immigration regulations.

Hon. Vincent Massey, Canadian minister, delivered the note to Frank B. Kellogg, Secretary of State. Comment from the state department will be withheld until officials have considered the Canadian communication more fully.

The note approves the offer of Mr. Kellogg to continue negotiations on border immigration and expressed the hope that a satisfactory settlement will be reached, but regrets that the United States Government did not see its way clear to amend the border ruling on April 1, which went into effect June 1, and which gives non-active Canadians six months in which to secure entry as immigrants under the quota law.

It points out that there is no precedent for the application of the term "immigrant" to citizens legally domiciled in another country and retaining their citizenship in this country.

The Jay Treaty of 1794 is quoted to illustrate the broad principle of free border intercourse "to promote a disposition favorable to friendship and good neighborhood," and the note points out that the laws of Canada make no distinction between its citizens on the strength of birth place any more than do the laws of the United States distinguish between native and naturalized citizens.

Socialist Mayor Ignored

No Invitation for Plymouth's Chief Magistrate When Prince Visits Town

London.—The Prince of Wales has arranged to make a tour of Cornwall and Devonshire for several days, and in connection therewith some resentment is felt because there is no chance of the Royal Western Yacht Club's proposed dance in Plymouth, Devonshire, have not invited Mayor J. J. Hanlyn Moses, Plymouth's first Socialist chief magistrate, to the dance. The town clerk and other members of the Plymouth council have been invited.

"I am too big to mind, personally," Mayor Moses said, "but it is the town that matters." It is regrettable that any such spirit of exclusiveness should be allowed to creep in and injure a function like this.

Arrested on Serious Charge

D'Autremont Brothers Are Taken Into Custody in Ohio

Stuebenville, Ohio.—Ray and Roy d'Autremont, wanted in Oregon for the killing of a postal clerk and three trainmen in a passenger train held up four years ago, were arrested by federal agents and local police.

The twin brothers, for whom a world-wide search has been conducted, were working in a steel mill here. Both admitted their identity when confronted by officers.

The brothers are accused of dynamiting a passenger train in a mail hold-up at Siskiyou, Oregon, in 1928.

New Pacific Cable

Victoria.—The freighter Drechtyk has commenced to unload 70 miles of cable which will form the last link in the new cable that connects up Canada with Australia and New Zealand. The line when completed will double the capacity of the cable business between the units of the British Empire.

A Long Auto Trip

Los Angeles, Calif.—A 6,700 mile trip in an automobile from the Pacific coast to New York city and back in seven days was completed here by Louis D. Miller, San Francisco business man, who claimed a new record for continuous motor travel and for elapsed time in the trans-continental tour.

W. N. U. 1885

Bay Ports Inquiry

Some Misapprehension Felt in West Over Investigation

Ottawa.—Charging that the Hudson's Bay Railway project is being accomplished with some difficulty although it will be done. There is no doubt about that.

For years in the East, the scheme has been opposed, one leading paper referring to it persistently as a "fantastic mirage." Parliament, until this session, was either antagonistic or apathetic but Hon. C. A. Dunnington then succeeded in getting through, with comparative ease, the appropriation that commits the Government to the completion of the line.

Now, when matters have been pretty well squared away in the East, criticism comes from Paris of the West because the merits of Churchill as well as Nelson are to be looked into.

As has been pointed out, the decision to investigate Churchill did not portend his selection as the terminal. As a matter of fact, it is learned that the proposal of inquiring into Churchill came from the British expert, Frederick Palmer. He urged that to be complete his report should cover both places and that in any event, his remuneration would be the same. That, really, is all there is to it. Hereafter, Nelson alone has been considered. Now, Churchill also will be looked over and detailed data secured as to both locations. The wider inquiry, however, does not indicate the choice of Churchill but at the same time it will exclude it as a possibility if it be found that its advantages exceed those of Port Nelson.

Plan Confederation Memorial

Victoria Club Members Will Launch Campaign Shortly

Victoria, B.C.—Erection of a temporary memorial to commemorate the achievements of the fathers of confederation will be the contribution of the Victoria Khammen's Club to the diamond jubilee of confederation celebration here next month. The Victoria club will shortly launch a campaign to have erected in the capital city in each Canadian province a permanent memorial to the Fathers of Confederation to be built by the provincial governments with the assistance of the Federal Government.

Want Funds for Relief Work

Vancouver.—Relief of cases of distress among war veterans and their families is the purpose to which the organized ex-service men of British Columbia, who have the \$250,000 grant fund allotted for this province to be put which a conference here of representative of the Canadian Legion, the Army and Navy Veterans' Association decided.

Bisley Team Has Sailed

Montreal.—The Canadian Bisley team sailed on the S.S. Ausonia from Montreal on June 10. The team will be in command of Brig-General J. Buff Stuart, of Vancouver, with Major Thomas McManus, Belleville, Ont., as adjutant. In addition to the regular team there will be present a team of cadets from the Hamilton Collegiate Institute, who are also going to Bisley to take part in the prize meet.

Want Peace Treaty

Washington.—An informal inquiry as to the willingness of the Washington Government to begin negotiations for a treaty of perpetual peace between France and the United States has been placed before the state department by Foreign Minister Briand. The inquiry is in the hands of Secretary Kellogg, who is expected to answer it within a week.

May Have Grieved Ocean

Montreal.—A carrier pigeon with a ring attached to its leg with the inscription "Little France," was captured by J. B. Martin, a farmer of St. Constant, about 25 miles from Montreal. The bird was practically exhausted when caught and is now being taken care of by the farmer until it is claimed, if ever, by its owner.

Sending Delegation to Germany

London.—The British Legion of the Empire Service League has decided to send a delegation to the international conference of ex-service men at Luxembourg in July. German ex-service men will also attend.

ASSASSINATION OF SOVIET ENVOY TO BE PROBED

Warsaw.—The Polish authorities have taken drastic steps to determine whether the assassination of Peter Volkoff, Soviet envoy at Warsaw, was part of a Russian Monarchist plot. Volkoff's assassin was a young Russian student studying at Vilna. The Polish police conducted searches and made arrests among the Monarchist colonies in both Warsaw and Vilna, five arrests at the capital and 29 at Vilna.

The Russian newspaper Vilna Novaya Rossia, which issued a special edition recommending subscriptions for the murderer, was promptly suppressed and the editor arrested.

The Polish Government is doing everything possible, it is announced, to fulfill the requirements of justice, and has succeeded to the Soviet demand for participation in the investigation, the Polish law permitting such a course. M. Litvinov's sharp note has made a painful impression in Polish governmental circles, which deplore the tragedy and regard it as an internal Russian affair, which accidentally happened in Poland, for which Poland has no moral responsibility. It is believed the Soviet Union will be satisfied with nothing less than the death penalty of the assassin, but it is not expected the tragedy will seriously impair relations between the two countries.

Plea For Tolerance

Hon. Peter Heenan Criticizes Those Who Sow Seeds of Discord

Ottawa.—Hon. Peter Heenan, Minister of Labor, would have a message of tolerance and cooperation broadcast throughout the Dominion as Canada's jubilee celebration message, he told the members of a local service club. He was severely critical of those who sowed seeds of discord and discontent in religious or social matters. Referring to the cry of Communists that labor was ill-treated in this country, the speaker said more had been done in behalf of the workers within the past ten years than in the previous half century.

Western Graduates

Toronto.—The Senate of the University of Toronto has announced the award of fellowships in the school of graduate studies for the session of 1927-28, including the following westerners: Mackenzie Fellowship—J. R. A. Pollard, Saskatchewan, department of history.

Special open fellowships—J. Caspar, Alberta, department of classical; D. E. Culver, British Columbia, department of English; L. S. Russell, Alberta, department of geology.

Thousand Square Miles of Blossoms

Nova Scotia's festival time is fast approaching, when a thousand square miles of one of the world-famous apple growing valleys will be smothered in bloom. One of the significant days in this province is "Bloom Sunday," when people go by thousands to the Annapolis Valley to look upon the white and pink landscapes of fragrant blossoms. The journey over the Dominion and Atlantic Railway at this time of year affords a trip long to be remembered, as the line passes through the very heart of the apple country. They cover more than 1,000 square miles of the province.

Premier Brownlee Going to England

Will Inquire Into Establishment of Agency in London

Edmonton, Alta.—Premier Brownlee expects to leave on a trip to England towards the end of this month. He has been considering the possibility of such a trip for some time past. It will be only in part a holiday event, however, for he has a full program of things that he proposes doing over there for and in behalf of the Province of Alberta.

A first hand check-up on the immigration work now being carried on by Hon. Herbert Greenfield and an inquiry into the possibilities of a general agency office in London will be one of the main purposes of the trip. The Premier will discuss the situation with various interested parties and organizations, and will see for himself what is the feeling in England towards closer relations with Alberta. In view of the improved position of the province he will also sound out the attitude of British industry and capital in the same direction, particularly in the hope of interesting further investment in the western Canadian field.

Another item on the premier's program will be an inquiry into the question of marketing Alberta products in England. In this respect he will be working in line with the Saskatchewan Government, which has already sent a commission to the motherland to investigate the conditions and prospects of the livestock and bacon trade, while Manitoba also is considering a similar step. So far as Alberta is concerned the inquiry in addition will bear largely on wheat marketing, about which Mr. Brownlee will ask a lot of questions during the trip. The Premier is making arrangements to get away and hopes to sail some time in the last week of June.

Appointed By Lincoln

Aged Resident of St. Cloud, Minn., Was Real Pioneer

St. Cloud, Minn.—Charles A. Gilman, 94 years old, former lieutenant-governor of Minnesota and one of the few pioneers of the northwest, who received appointment to public office from Abraham Lincoln, died here recently from old age. Mr. Gilman, who had resided here for 72 years, was appointed lieutenant-governor of the United States land office in 1861 by President Lincoln, and was reappointed in 1866 by President Andrew Johnson. He served as lieutenant-governor from 1881 to 1885. Four daughters and a son survive.

Will Be Settled at Geneva

Belgrade.—It has been announced that Jugoslavia is willing to thresh out the Albanian difficulty through the League of Nations and there is nothing to indicate undue excitement or a basis for rumors spread abroad of martial law in Belgrade.

NAME DELEGATES FOR BRITAIN TO NAVAL PARLEY

Washington.—Names of delegates who will represent Great Britain and her Dominions at the Geneva three-power naval limitations conference have been submitted to the state department by the British embassy and the Canadian and Irish legations. Viscount Cecil, who for years has represented Great Britain in disarmament conferences in Europe, will head the delegation, assisted by W. C. Bridgeman, First Lord of the Admiralty, who will also represent India, and Vice-Admiral Sir S. L. Field, deputy chief of the naval staff.

Canada will be represented by Hon. Ernest Lapointe, the Minister of Justice. In the event that he fails to arrive in Geneva by June 20, the opening date of the conference, Canada will be represented by her permanent agent there, Dr. W. W. Riddell.

J. S. Smith, high commissioner for the Union of South Africa in London, and C. Pienar, trade commissioner for Europe will speak for the Union, while Sir J. Cook, High Commissioner in London, will represent Australia.

New Zealand will be represented by J. Parr, London High Commissioner, and Earl Jellicoe, Admiral of the Fleet. For the Irish Free State, Desmond Fitzgerald, Minister for External Affairs, and John Costello, Attorney-General, will be present.

Abandons Quest in Arctic

Wilkins Believes Further Flights This Summer Would Be Foolhardy

Fairbanks, Alaska.—For this year at least Captain George H. Wilkins has abandoned his attempt to visit from the uncharted Arctic the mystery of the fogs which hang low over the Arctic Ocean. In the summer, Captain Wilkins believes that further flights North of Alaska this summer would be foolhardy. Returning to Fairbanks from Point Barrow, the Northern base of the expedition, an Australian explorer and the other members of his party left for the United States.

The explorer has made three flights North from Point Barrow, to prove or disprove the theory that there are islands between Point Barrow and the North Pole.

The second air voyage into the Arctic was made two months ago and nearly ended in disaster. The plane was forced down with engine trouble on the ice pack.

Wilkins and Ben Eilson, Alaskan pilot, walked 80 miles over the ice to land.

Starting from Point Barrow, Wilkins and Alice Graham, Detroit pilot, essayed the third flight June 4. They flew 200 miles toward Greenland but were forced by dense fogs to return.

New Mining Company for B.C.

Victoria.—With \$100,000 cash, C. Julian, noted California oil operator, formally entered into the British Columbia business and development field on a large scale. The formal pact was completed at the Parliament buildings when Julian was granted incorporation papers under B.C. laws to operate in this province under the name of the New Monte Crest Mining Co., with a capital of \$1,000,000.

Spent Weeks in Peruvian Wilds

Toronto.—After weeks of terror in the Peruvian wilderness, Robert Hirs, electrical engineer who was first reported missing and then dead in the wilds of interior South America, has returned safely to his home town, Toronto. Circumstances compelled him to live two weeks with a tribe of Inca Indians in the jungle, a delay which occasioned alarm as to his safety.

Amundsen Sailed for Orient

Vancouver.—Captain Roald Amundsen, world renowned explorer and the only man in the world to have reached the two poles, is a passenger on the Empress of Asia, leaving on his 10th voyage west to the Orient. Captain Amundsen, who flew over the North Pole and also reached the Pole on his famous expedition, is booked for Yokohama.

French River Home of the Fighting "Muskie"

E.A. FARNSWORTH (LEFT) WITH
55 LB. MUSKIE

A PORTAGE

"Muskie" are so plentiful at French River, Ontario, according to J. G. Strathdee, who runs the French River Bungalow Camp at this Ontario resort, that he and his mother, while paddling down the River, past the golf course, struck a muscalunge at least four feet long which was sunning itself near the surface of the water. The muskie, which was as surprised as the canoeists, leaped several feet out of the water, then vanished from view.

French River station is on the Canadian Pacific Railway, 215 miles north of Toronto, 60 miles north of Parry Sound, and 45 miles south of Sudbury. The Bungalow Camp is attractively situated on an elevation commanding a magnificent view of

the main channel of the French River and within 200 yards of the station. In addition to the Bungalow Camp, an outlying sub-camp is situated at Pine Rapids, at the head of Eighteen Mile Island, in the heart of the best fishing waters of the upper French River. It has as an adjunct Pine Rapids Camp, which is 25 miles up the river. These two camps accommodate ninety people, and there are plenty of fish—muscalunge, Great Northern pike, pickerel, and small and large mouth black bass. There are thirty well built and comfortable bungalows at the main camp, while Pine Rapids has canvas houses built on wooden floors. French River is 215 miles North of Toronto.

Here is a tale told by Mr. Strathdee, about a "muskie" with a toothache. In August, this big Irish water tiger needs a fish dentist. Last year a visitor to French River hooked a 30-pounder which immediately dropped to the bottom of the river and sulked. The knowing Indian guide tapped the rod with his knife; the vibrations went through the pole down the line to the mouth of the "muskie", and irritated one of its sore teeth. The muskie then leaped clear of the water, and proceeded to give the fisherman a fierce fight lasting three-quarters of an hour! The muscalunge at French River run from 10 to 45 pounds, and one was caught in this well-known angling resort which weighed 55 lbs.

Here and There

In addition to the Exhibition of fowl at the World's Poultry Congress at Ottawa, there will also be a large display of rabbits and canaries. Announcement to this effect was made at a meeting of the Congress Live Bird Committee, which has definitely assigned space for these added classes at the exhibition.

Thousands of citizens of Regina took advantage of the opportunity to inspect the new Canadian Pacific Hotel Saskatchewan, opened May 24 by E. W. Beatty, Chairman and President of the Canadian Pacific Railway. This eleven story addition to the company's chain of hotels across the continent is regarded as one of the finest buildings in the west.

Canada's industrial products of today, together with a comprehensive demonstration of the progress of industry in the Dominion since confederation, will be displayed in elaborate styles at an exposition which the Produced-in-Canada Association, sponsored by the Canadian Manufacturers' Association, will stage in Montreal in August next.

This spring about 5,000 men have been placed on Alberta farms by the Alberta Government Employment Service. During the month of April and the first ten days of May 1,000 men have been given employment by O. Hanson & Company, local employment agents for the Canadian Pacific Railway. These men have been sent out on section work and to extra gangs. Of the number mentioned 778 were new arrivals from continental countries.

According to the latest information given out by the Canadian Pacific Railway in connection with the proposed new Toronto hotel, additional land has been purchased bringing the frontage on Front Street up to nearly 600 feet. It has also been stated that the new C.P.R. hotel will be 20 stories or more in height. The site of the proposed structure is directly opposite the new Union Station, the land being occupied at present by the well-known Queens Hotel.

Don Salvador Castello, who will head the Spanish delegation to World's Poultry Congress to be held in Ottawa from July 27th to August 4th, has notified Congress headquarters that the representatives from this country will arrive in Canada on July 23rd or 24th. The Spanish live bird exhibit will reach Montreal on July 21st or 22nd. The party is sailing from Cherbourg on the C.P.R. liner "Montreal" on July 14th. Don Salvador Castello states he believes the Spanish National Exhibition will be one of the most remarkable staged at the Congress Exhibition.

The Post Office Department advises that permission has been granted to the Western Canada Airways, Limited, or its agents, to operate an air mail service between Rolling Portage, Ontario, and the Red Lake mining area, and convey such mail as is offered for conveyance by this service. The requirements are: (1) The words "By air mail" to be prominently written on the address side; (2) The usual Canadian postage be affixed on the address side; (3) The "Air mail stamp" to be placed on the reverse side.

E. W. Beatty, Chairman and President of the Canadian Pacific Railway, has offered \$5,000 in prizes for the 1928 musical festival to be held at the Chateau Frontenac, Quebec. The Folk song festival recently concluded at the Ancient Capital was an outstanding musical success, being carried out for the first time. The prizes offered by Mr. Beatty will be for musical competitions based on French-Canadian chansons populaires and folk melodies. J. Murray Gibson, Canadian author, who has translated many old French-Canadian folk songs, is largely responsible for the success of the recent festival at Quebec. Judging from press comment in all parts of the continent these old songs of French Canada are fast gaining in popularity.

COPYRIGHT, CANADA, 1925

CHAPTER I.—Continued

"Are they all bad, Aunt Lili?" asked Helmi tearfully.

A long spell of coughing delayed the answer.

"They don't want to settle down in their home like we do; they don't like kids and a nice quiet life—though they will tell you that. You are pretty Helmi; that's why I am afraid. I don't want Miss Kenty to be so much helped. He'll want you just like he wanted me. Kate, the cook, will keep you safe. All the girls are my friends. . . . Remember what Aunt Lili said, Helmi."

Having received the extension of time she had asked for, and having delivered her message, Aunt Lili gave up the fight without a struggle. The silence of the room was broken by the stormy sob of big Kate, the cook, and the two upstairs girls. She had said good-bye to all the girls in the house the night before. Her last and tenderest words were for her young niece.

"If you could only talk English I would stay," she had said. "It is a good country, but it's too hard for a pretty girl who has no English."

"I can learn, dear Auntie," said Helmi, kissing the thin white hand, "like you did, Aunt Lili," but Aunt Lili did not hear.

Mike Kenty, the proprietor of the "Farmer's Home," learned in some way of his niece's arrival and came to see her. He pinched her arm affectionately at the foot of the funeral and told her to call him "Mike" and cut the "Creek" stuff. His burning eyes made her shudder.

One of the girls, talked Finnish, and in big Kate's room off the kitchen, a council was held. Helmi was firm in her determination to stay. Big Kate, who had one hundred dollars in trust for her, urged her to leave; the Finnish girl faithfully interpreting both sides of the argument.

For three days the discussion raged. Helmi during the intervals having washed her clothes and laid her English names. She also did her share of darning and potato peeling. Her skill in these matters won the heart of the cook, who on the

third day wrote a letter to her sister in Winnipeg telling her to meet the train from Saint Paul on a certain day and look out for a "Finnish" girl with red hair and a green T-shirt.

The day that Helmi left, big Kate made the explanation to the bereaved uncle. Being the cook, she was not afraid to talk back to any one, and besides, she had certain information which quieted Mr. Laine's outburst of indignation. Miss Katherine Kenty was not so large that she could not kneel at the door and apply her eye to a keyhole in such a manner that the whole room and its activities were revealed. Mr. Laine could not reply to Miss Kenty's accusations and threats of exposure by hitting her over the head with a chair. Such unbecoming methods of dealing with women can only be safely used inside the hallowed precincts of matrimony. He contented himself by telling the cook he did not care what she had done with the girl; he had "had enough of these bad tempered Finns anyway."

With this Mr. Laine shrugged his shoulders and went back to the bar. He would probably get the girl yet. She would be writing back for money and claiming relationship with him. A girl like that, right off the farm in Finland, with a pretty face and no English—Some fellow would be too smart for her.

On the 30th day, in the day, coach with her face against the glass, a box of sandwiches beside her, money in her purse and five ten-dollar bills sewed securely into the pocket of her petticoat, sat Helmi, watching the landscape slip past. It was a brilliant day in March; wild geese were flying north in V-shaped formation; cattle with bloody coats were roaming the fields; black channels of water licked their way through snow; fenceposts were showing like rows of fancy stitching under the fields. At one station, where the train waited to change engines, the boys and girls just out of school had come down to the station. Helmi was glad to see one girl wearing a cap much like her own—it gave her a delicious thrill of moment. A boy and girl walked away together—the boy carrying his companion's books and skates as well as his own. He leaned towards her as he spoke.

Helmi's eyes were wistful as she watched. "They are not all bad," she said in her own tongue.

The train bore north on. Early Helmi watched the racing, swinging, sliding fields. The sun went down in a crimson mist, shooting streamers into the sky, so warm and glowing that it seemed to Helmi like a welcoming fire, where she would find friends, home and happiness. Even after the sunset had paled and faded into the gray of night she knew that it was still burning and glowing and beckoning her further on.

And so came Helmi, young, strong and unfatigued.

CHAPTER II.

Margaret Kenty was wiping her hands in the bran-colored towel towel of which hung behind the pantry door, preparatory to the opening of her sister's letter, which lay on the drain board. Not for a moment did the elder Miss Kenty take her eyes off the letter.

"It's from Kate in the States," she said, "and so it's trouble. She's adopted a child, or killed a man for beating his horse, or something. She never writes only when she is in a hurry of some kind. Gosh! I often wish she was in jail, where I'd be shot of her, had come to her imprisonment. I told her the time she sent me the dog that I was done with her. Well, I may as well open it."

As Miss Kenty read the letter, following each line with a red forefinger, consternation settled upon her like a leaden weight.

"What the devil!" she began. "Finn girl, red haired and smart . . . had to get her away; it was not safe for her here. . . . I remain your loving sister, Kate."

"Oh! so she remains your loving sister! Well, I am no loving sister of hers. She always finds the trouble—she can place it without a willow wand, can Kate?—and then hands it on to me. Well, here's a pretty how-do-you-do, a Finn girl, no English, comin' on the train. Please Maggie, find her a place. Easiest thing in the world, Maggie, sorry a thing you have to do; anyway."

"See here, Anna Milander, you should be the one to look out for a Finn girl. Listen to this."

The head dining-room girl came languidly into the kitchen. "What's the row?" she asked.

Maggie read the letter.

"She'll be in at five tomorrow, when I'm in up to me eyes in the dinner. Now, you go down, you can speak to her and be back in time to carry the dinner, too."

Anna's head was flung back. "I think I see myself. I didn't send for this girl—she's nothing to me—mere another wage slave coming to take a job. There's too many girls now for the job."

Maggie Kenty's face was screwed up in astonishment. "My God," she cried, "is there the brotherhood you learn at your meeting?"

"We're opposed to immigration," said Anna firmly. "The Government dumps in people here, just to keep wages down. It's the capitalists' game. You haven't sense enough to see it."

"For all the bracken, scoldish lump! I ever saw it you Anna. When you came here two years ago all you could say was 'Yiss.' Who showed you how to make a bed and comb your hair and stir up your stockings. And now, by Gosh, you wouldn't meet another girl at the station, and her from your own country and all. Did you never hear of the Golden Rule, to do as you would be done by?"

"Old stuff, Maggie, scoffed Anna. "No one believes that stuff. The title, that's all that stuff around to tell us to sleep, that's all. It may catch you and your breed, but not us. We've come a long way past that."

"What the devil do you want, Anna? Haven't you got a good job? Work, that's all. It may catch you and your breed, but not us. We've come a long way past that."

"What the devil do you want, Anna? Haven't you got a good job? Work, that's all. It may catch you and your breed, but not us. We've come a long way past that."

"We have nothing to lose but our chains," said Anna loftily. "How long could Spencer run this joint without us? We're the backbone of the workers, but we haven't the backbone to claim it. Softies like you keep us back with your Golden Rule, and the Spencers get the profits. There's only two classes, those who work and those who live off their work. So, people earn and some spend. If the workers would all organize we could dictate terms. Some day we'll do it. Then a new day will come."

(To Be Continued.)

Iodine for Scarlet Fever

Iodine, injected hypodermically, not only will cure scarlet fever, but will totally kill its germs, according to a doctor practicing in the Ambrosi Mountains in Italy. He said he tried it during a recent epidemic and stamped out the scourge in a few days. The iodine was injected in quantities proportionate with the age of the patient.

"Grandpa's a hundred and three years old today, doctor."

"Isn't that splendid! And does he read or do anything?"

"No," said the son to have no attention for nothing."—Pearsons Weekly.

Two of life's urgent requisites are good health and a little more money.

Invented Good-Paying Job

Englishman Tramps Around Country

Typing Letters for Farmers

Out tramp with a typewriter, doing letters for people in lonely farms and in out-of-the-way villages, is a job that an ex-serviceman has invented for himself in order to earn a living.

He is Horace Woodford, a native of New England, who was a clerk at Hull before joining the army, and afterwards was in turn, hop-pole, ship's stoker and ship's hawker.

"I have been making a decent living for the past two years tramping round the country from the early spring to the late autumn," he told an interviewer recently.

"I type letters for farmers and their servants, and when I strike any big public works I always find that the men—more especially the navies—are glad to have the opportunity of having a letter typed for them."

"I have tramped all over England, Ireland and Wales, and now I am going to try Scotland. My charges for letters, long or short, is 12 cents. I must have typed thousands, including lots of letters."

"I never knew there was so much romance on the land. To hear some folk telling their story in the rough and ready language, was a surprise to me."

"The girls always want a line or two of poetry, and as I have an old book of verse I am able to oblige them."

An Unusual Request

Toronto Man Left Something Better Than Money to Children

A Toronto real estate dealer, who died recently, didn't leave his family very rich, but he bequeathed to his children some advice which, if acted upon, will prove to be much more valuable than gold or silver. In his last will and testament he declared that his fervent prayer was that all his "darling children" will embrace every opportunity to do good, as he believed and living to all the human family."

If the beneficiaries of this advice ponder over it, and put it into daily practice, they will lay up for themselves riches, both in this life and in the life to come. They will be rich in the affection and regard of their fellowmen. Like begonia like men manifest kindness and love toward the human family, they will receive the same in return.

Money is not everything. As Tolson says, so well put it: "Kind hearts are more than coronets." So fathers who have little or no money to leave to their children may easily do a better thing than that. Their father who sought to bequeath to his offspring the spirit of kindness and of brotherly love.

Little Helps For This Week

Blessed are the pure in heart, for they shall see God.—Matthew v. 8.

The pure in heart God's face shall see.

And does not this include the whole ecstatic scale of Promised Bliss?

Can words which His dear presence gain.

More joy attain.

Certainly as the open eye drinks in the light, do the pure-in heart see God. And so that lives truly, feels Him as a presence not to be put by.

Barney, said Theodore Parker.

The pure in heart see God in everything, and see Him everywhere; and they are supremely blessed.

—John O. Holland

Back-to-the-Land

A member of Parliament was a passenger on a steamship which was slowly sinking. The passengers were climbing into the lifeboats.

"Sir," suggested a reporter on board the ill-fated vessel, "there's a chance for some publicity. If you care—"

"You may quote me as saying," replied the statesman, "that I am heartily in favor of a back-to-the-land movement."

Barney—"I make my son practice four hours each day."

Barney—"Hush, man, you'll make him hate music so much that he will give it up."

Barney—"Fine. That's just what I want."

Mindard's Liniment is reliable.

Growth of Winnipeg

is Now the Third Largest City in Canada

Winnipeg is still the third largest city in Canada, according to figures furnished by the Board of Trade. Its population, including suburbs, is 294,446, as given in Handbook and Almanac, Montreal and Toronto are, of course, well ahead of this figure, the former at a million and the latter at three-quarters. City Hall records give the population of Winnipeg proper at 188,325, or a gain of 1,000 over a year ago. (Vancouver comes next with about 160,000.)

THAT BABY OF YOURS

Keep Him Well With the Aid of Baby's Own Tablets

No matter how strong and rosy your child may be he requires a laxative sometimes so that the stomach may be kept sweet and the system clean.

Formerly the laxative medicines given to children were disagreeable ones—castor oil, senna tea, powders and so on. But now Baby's Own Tablets, easily administered, pleasant to take, have superseded these. The children like Baby's Own Tablets.

Not only a laxative, but they are also a remedy for little ones. They quickly relieve constipation, colic, indigestion, colic and vomiting, prevent constipation, check diarrhoea, allay teething pains and promote healthy, natural sleep.

You can get Baby's Own Tablets at any dealer in medicine or at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

One thing about the greedy man, and he who has been along the street the former always eats too long—the latter always longs to eat!

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop stinging, carry away the poison, dry, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among oils and numbers of people can testify that it healed where properly applied.

Dad—"I promised you a bicycle if you passed the examination, but you failed. What have you been doing?"

Son—"Learning to ride a bicycle."

Ease Suffering with Minard's Liniment

A man doesn't fully realize the blindness of justice until he gets the short end of a lawsuit.

It keeps in the opened Tin

Never worry about leaving Eagle Brand in the opened tin. It keeps perfectly pure and sweet, if kept covered in a cool place.

Borden's EAGLE BRAND

OPERATION LEFT HER VERY WEAK

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario.—"After a severe operation and a three weeks' stay in hospital

I returned home so weak that I was unable to rise from my chair. For four months I was almost frantic with pains and suffering until I thought there could not be any help for me. I had never heard of Lydia E. Pinkham's Vegetable Compound, but when I was not able to get up my mother begged me to try your medicine. My husband and I bought a bottle of your Compound at once and I took it. I started a second bottle, and to my surprise and joy the pains in my side left me completely and I am able to do all my work without help. I am a farmer's wife and so you see I can't be idle long. In all, I have taken six bottles of Lydia E. Pinkham's Vegetable Compound. Five boxes of the Compound Tablets, two bottles of Lydia E. Pinkham's Blood Purifier, and have also used the Sarsaparilla Wash. —Mrs. L. LAJUNESSA, Box 165, Coniston, Ontario.

"Sign for Safety"

The Second Series of Wheat Pool Contracts

SAFETY because it is a farmer-owned and controlled co-operative Association which markets over fifty per cent of Canada's wheat crop.

SAFETY because it guarantees to the farmers every cent paid by the consumer minus only the minimum costs of marketing.

SAFETY because it increased the farmers' income and independence by giving him a voice in the selling of his crop.

SAFETY because it insures the farmer against the losses and uncertainties caused by fluctuating speculative markets.

SAFETY because of low handling costs. The total annual expenses of operating the Alberta Wheat Pool in 1923, 1924 and 1925 was less than one-half a cent per bushel. The total expense of the Central Selling Agency in 1925-26 was one-fifth of a cent per bushel.

SAFETY because the Pool employs experts to handle and sell its grain.

SAFETY because Pool elevators guarantee fair weights, grades and dockage and good service.

SAFETY because the Pool merchandises wheat as the demand arises and thus avoids depressing values by offering more than the consumer will take at fair prices.

SAFETY because the sole aim of Pool salesmen is to get the true value of wheat for its members.

Stony Plain and District.

Inga M.D. Councillors will meet in Stony Plain tomorrow, June 17th.

Mrs W Henschke and her daughters Anna and Irene have returned to their home at Vernon, B. C. They had been visiting in this district with Mrs Henschke's brothers, Messrs George and Dan Gitzel.

Mr Henry Enders and son Karl are, this week, making a motor trip to Wembley.

W J Brown shipped a car of horses from Stony, for use around the mines at Luscar. These averaged 1350 lbs., big boned but thin.

Those good Chevrolet cars are going like hot cakes. Having already sold a large number of these autos this season, Sommerfield & Mayer (agents in Stony Plain) report the following sales for last week: J P Coats, Duffield; C C Honert, Onoway; Elmer Anderson, Holborn; Const. J Mantle, J Cameron and W Phenie, Lac Ste Anne; Max Kast, Stony Plain.

Mr W C Trimble, of Edmonton, gave a demonstration in Stony yesterday of the Star Cars.

Dr G B Thurston, dentist, is taking a vacation at present and will discontinue his trips to Stony for a short time. He will resume his practice the latter part of July.

Stony Plain and District.

A Mission Festival was held on Sunday last at the Golden Spike Lutheran church (Rev Hannaman pastor). There was a large attendance.

Mr J Ulmer leaves this week, on a trip to the Mayo Institute at Rochester, Minn.

Mr and Mrs Charlie Knol and Mr and Mrs Hansen of Leduc were the guests of Mr and Mrs Dan Gitzel of Garden Valley over the week-end. A very enjoyable time was spent.

Holborn U. F. Local are holding a dance tomorrow evening Friday, June 17th.

Bartha's well known orchestra will supply the music at the big dance at Holborn hall tomorrow evening.

There will be a Community dance at Muir Lake School-house tomorrow (Friday) evening, June 17th.

Sporting Notes.

Stony's Senior ball-tossers played the Grove team last week—with the usual result.

As the game proceeded, it looked like a shut out for the local boys, as the Grove had 9 runs to Stony's 0, until Louie Enders found the combination and scored a run. A feature of the game was D Moyer's home run, bringing in two men. Another feature was the shortstop's attempt to block a grounder with his foot, and have the ball run up his leg and up over his shoulder, to a fielder who nearly caught it. Stony's sluggers had an off day, as they failed to connect with Miller's curves in a very noticeable manner. The Groves' good fielding and batting brought results—19 runs to Stony's 5. Our local team is coming along nicely, and will shortly be in a position to win a game.

Stony line-up: Ph Alt, S Zucht, D Moyer, T Dick, Jac Fuhr, Jac Ulmer, Louis Enders, E Altan, Battery—C Lory p, Jac Ulmer c, Groves's Battery—Miller p, C Fuhr c.

On Friday last Spruce Grove girls' basketball team invaded Garden Valley, with hopes of victory. However, Garden Valley team set to work with a vim, serving a flashy brand of ball, and soon had the game under lock and key. The Grove team no doubt was handicapped by the use of a real basketball after practising with what appeared to be a volley ball. Each ball was used for half the game, so that all round it was quite fair. The guards of Spruce Grove were hard to get by at times, but the Valley's forward line brought excellent results. Final score: G V 18, Grove 0. Referee, C Fuhr.

Stony's High School ball team played Holborn on the latter's grounds, Sunday afternoon last, and found themselves up against a tough proposition, with Coombes, one of those good ball players from Edmonton on the opposing team, but in spite of this, Stony High put up a good fight and scored 11 runs to Holborn's 17. Stony's line-up: W Smith, G Clarke, Larson, Wildman, Anderson, L Miller, L Ostway. Battery—R Witherspoon p, A Mohr c. Umpire, C Tory.

Stony's High School ball team are anxious to have a game with the Stony Seniors, but so far have been unable to connect.

Spruce Grove News

Mr Floyd Baker, of Fort Saskatchewan, and Mr Stitt, Edmonton, were among the Sunday visitors to the Grove.

Mine Host Miller had a busy time Friday afternoon, what with building tables, whatnots and ceteras. Joe did some pretty nice work, in spite of the fact he had a left-handed saw.

Messrs Phil D and Wm Fuhr made a motor trip to Westlock, returning Saturday evening.

Mr E C McLaughlin last week sold 24 head of cattle (mixed lot, mostly yearlings) to McGowan, of Edmonton.

Mr and Mrs Dan Gitzel and family attended the wedding at Spruce Grove, on the 14th inst., of Miss Emma Fischer and Mr Edward Apple.

A big crowd of spectators were in attendance, Sunday afternoon, when Duffield's players engaged the Grove's team. The Grove team was looking for a pretty stiff contest, as the word had gone round that Duffield team was now practically invincible since the addition of the two new players. This did not prove to be correct, as the Grovers had the game clinched at every stage. The visitors made a rally in the 7th to cut down the big lead, but were too far behind. Final score: Grove 13, Duffield 5. Umpire, Dave Bell. The manager of the Stony Plain Seniors was an interested spectator all thru the game.

Messrs Jac and Dan Brox made a motor trip to Westlock last week.

Mr McKeen's friends are urging him to send Betty II, his famous two-egg-a-day hen, to the Edmonton Exhibition. "Scotty" has been asking a shilling apiece for her eggs, for setting.

The secretary of the Municipality is calling for tenders for a brush breaker.

M Mecklenburg, eyesight specialist, will be at Spruce Grove Wednesday, June 29.

WANTED—Contract for Grubbing and Brushing. Apply Stony Plain Restaurant. 56

FOR SALE, Underwood Typewriter, very reasonable. J A Barrie, Edmonton Beach. 58

WANTED, person to break land that has gone back, adjoining Edmonton Beach. Apply J A Barrie. 58

TENDERS WANTED!

TENDERS for a Twenty-Inch John Deere Steel Beam Power Brush Breaker will be received by the undersigned up to Twelve o'Clock (Noon) on SATURDAY, JUNE 18, 1927.

Lowest or any Tender not necessarily accepted.

E. J. WILLETT,
Assistant Secretary-Treas.
Spruce Grove M.D. No. 519,
Spruce Grove, Alberta.
